

Baby Biscuit

Preparation Guide

Choose the amount of water and cereal powder according to the feeding guide and depending on your baby's age and appetite.

Boil fresh drinking water and allow it to cool down to about 50 °C.

Put the recommended amount of powder (according to feeding guide) into a bowl.

Measure boiled water (according to feeding guide), add to the powder and stir.

Leave to stand to thicken until it reaches the desired consistency. Check the temperature.

Feeding Guide

Each baby is different, so daily milk cereal portions may differ greatly. Our feeding guide shall help you prepare different amounts of milk cereal correctly.

	Powder (g)	Water	Portion
from the 6 th month	45 (approx. 4 tablespoons)	140 ml	185 g
from the 8 th month	50 (4-5 tablespoons)	155 ml	205 g
for a smaller portion	40 (3-4 tablespoons)	130 ml	170 g

Important information

- It is important for your baby's health that you follow the instructions carefully and adhere to the indicated quantities when preparing their cereal.
- Always feed the cereal from a spoon and prepare it freshly each time.
- Close the opened sachet tightly after each use, store in a dry and hygienic place at room temperature and use up within 3-4 weeks.
- Please do not warm up the cereal in the microwave (risk of scalding!).
- Please make sure to brush your baby's teeth regularly after they get their first tooth.

Please pay attention to your baby's balanced diet and healthy way of living.

HiPP's supreme quality

- more than 60 years of experience in organic farming
- the strictest controls by our quality lab, which is one of the leading labs in Europe
- stricter limit values than required by law
- species-appropriate and traditional animal farming
- non-GMO*
- natural organic cereals – cultivated without the use of chemically synthesised pesticides or fast-acting fertilisers*

*in accordance with the EC Organic Farming Regulation

JUST ADD WATER

HiPP Milk & Cereal Good Night with wholemeal cereals

Cereals are an important part of any balanced diet, also your baby's. The outer layers of the grain are especially rich in vitamins and nutrients. This is why HiPP uses the whole grain for their wholemeal cereals. HiPP Milk & Cereal Good Night keeps your baby full and doesn't contain any added sugars, making it the ideal meal before bedtime.
